**Niagara Falls Water Board Alerts Ratepayers that Organization  
has no Role in Lead Water Service Replacement Work  
Performed by Contractor Hired by City of Niagara Falls**

The Niagara Falls Water Board has received a number of calls regarding issues associated with lead water service line replacement work being performed by contractor Fourth Generation in various areas of the City of Niagara Falls.

The public should be aware that Fourth Generation was contracted by the City of Niagara Falls – an entity separate and distinct from the Water Board – to perform grant-funded lead water service line replacements, and the Water Board has no role in the work performed by Fourth Generation.

All ratepayer questions related to the lead replacement contractor can therefore be directed to the City of Niagara Falls.
